MIGUEL A. UREÑA PÉREZ

FULL STACK DEVELOPER | REACT · NODE.JS · POSTGRESQL

Santiago, Dominican Republic | +1 (809) 878-3598 | anguelmiguel31@gmail.com
miguelurena.dev | github.com/miguelangelurena | linkedin.com/in/miguel-urena-2b32892b7

PROFESSIONAL PROFILE

Full Stack Developer with experience contributing to a production healthcare platform and delivering full-stack web applications. Builds React interfaces, Node.js/Express REST APIs, and PostgreSQL-backed features, including secure authentication, interactive dashboards, and data exports. Brings a strong foundation in technical troubleshooting and cross-functional support.

TECHNICAL SKILLS

Languages & Frontend: JavaScript, SQL, HTML, CSS, React, Astro, Tailwind CSS
Backend & Databases: Node.js, Express, REST APIs, PostgreSQL, MongoDB, Supabase
Development Tools: Git, Postman, Linux

SOFTWARE DEVELOPMENT EXPERIENCE

ZitDevs LLC | Full Stack Developer — Aug 2026 – Nov 2026

- Contributed to maintenance and feature updates for Ovvio, a production healthcare web application, within an established codebase.
- Investigated UI and functional issues, traced application behavior across React components and related backend services, and supported targeted fixes.

ZitDevs LLC | Frontend Developer (Project-Based) — Nov 2024 – Jun 2025

- Developed responsive frontend pages for 3Peso using Astro and Tailwind CSS, supporting layouts across desktop and mobile screens.

SELECTED SOFTWARE PROJECTS

Tesoria | React · Node.js · Express · PostgreSQL | tesoria.onrender.com

- Designed, built, and deployed a full-stack budgeting app with transaction management, 50/30/20 budgeting, live charts, and 12-month CSV export.
- Implemented account security with email verification, password recovery, bcrypt password hashing, httpOnly session cookies, and rate limiting.
- Built REST endpoints for budgets and transaction CRUD, with documented unit tests and staging checks for authentication.

Calendario Zoé | JavaScript · Express · REST APIs | calendariozoe.space

- Developed and deployed a scheduling app for worship teams with authentication, role-based access, conflict-aware planning, and PDF export.

ADDITIONAL TECHNICAL EXPERIENCE

AlphaCom | IT Specialist / Technical Support — Jul 2025 – Aug 2026

- Resolved hardware and software incidents, configured workstations, and supported backup and network-connectivity troubleshooting.

EDUCATION & LANGUAGES

UAPA University | B.S. in Software Engineering | Expected 2027
Languages: Spanish (native) · English (advanced)
